

Arise4Future

ARISE FOR SUSTAINABILITY

SENIOR
Grades 8 to 12

Register

<https://forms.gle/CjEh4a1BLNePAYR4A>

Children are the most affected stakeholders when we talk about the environment because their future is affected by the current and future state of the environment. We believe that students are doers as well as major influencers. Well informed student community will be better prepared to deal with the environmental challenges.

ABOUT US:

We are a group of professionals engaged in consulting, training, risk assessment and auditing of various industry sectors in the field of environmental, & sustainability, community service, energy, health & safety, quality, finance, etc.

OUR AIM:

The purpose of the Arise educational series is to make stakeholders aware about the environmental and societal challenges facing the world so that they make informed decisions. The earnings from such initiatives go towards sustainable projects and health, education and skill development of underprivileged children and youth.

What will we learn?

- How our daily life affects the environment
- What happens when we consume/use – material, electricity, water, fuel, food, plastics, etc. (Life Cycle)
- Our environmental footprint and the 5 Rs.
- Sustainable living and International Sustainability Frameworks.
- Industry and NGO participation in Sustainability
